

FORGE

HWjunction

Getting back to Hardware Mode!

For the hardware age tinkerers, makers and innovators!

HWjunction is aimed at becoming a community led, managed and curated platform in Coimbatore for hardware enthusiasts to learn, to build, to share, to play, to tinker, to meet and to build a robust network.

FORGE.FACTORY is a startup/innovators hub and a makerspace for the innovators and entrepreneurs to forge their hardware ideas into launch-ready products and investable startups.

Challenges

1. Turn Light on/off in Web App
2. If there is low light, turn on the LED light automatically
3. Interface with LM35 to display temperature in Web App
4. Display how far a person from the door using “Ultrasonic sensor”
5. Buzz an alarm if PIR sensor detects a person

Thank You
